Day 7: Arrays

H by **saikiran9194**

Problem	**Submissions**	**Leaderboard**	**Discussions**	**Editorial** 🔒	**Tutorial**

Objective

Today, we're learning about the *Array* data structure. Check out the Tutorial tab for learning materials and an instructional video!

Task

Given an array, A, of N integers, print A's elements in *reverse* order as a single line of space-separated numbers.

Input Format

The first line contains an integer, N (the size of our array).
The second line contains N space-separated integers describing array A's elements.

Constraints

- $1 \le N \le 1000$

- $1 \le A_i \le 10000$, where A_i is the ith integer in the array.

Output Format

Print the elements of array A in reverse order as a single line of space-separated numbers.
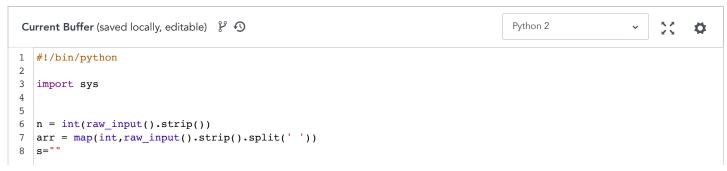

Sample Input

```
4
1 4 3 2
```

Sample Output

```
2 3 4 1
```
